

**American University Neighborhood Partnership
Facilities Planning Working Group Summary**

September 26, 2019

Key Discussion Points:

- Facilities Planning Review
- Fall Meeting Dates

Summary: The Facilities Planning presentation provides an analytical map of AU's campus as it stands, this includes details about what was built following the last campus planning process and how AU currently uses the land and buildings in its possession. The group also discussed the land-use outside of the campus including the announcement that the nearby Department of Homeland Security was moving and AU's current master-leasing plans for student housing.

The neighborhood representatives then presented their concerns on the impact future AU facilities would have on the environment around them. The group discussed the impacts of traffic near Horace Mann from AU students parking their cars nearby.
