

Faculty Senate Tuition Resolution

12-5-2018

Whereas providing access to students of limited means to an American University education is a high priority for the Faculty Senate, and since it believes the way to do this is by increasing the University's discount rate to align it with peer institutions, the Faculty Senate supports an increase in the discount rate. The necessary resources will be obtained by a modest tuition increase to support the expansion and indexing of financial aid and, importantly, to help meet the University's needs in maintaining academic and inclusive excellence.
