The equipment listed above is typical in residence halls. Confirm make and model number is available. Changes or replacements require approval from Housing and Residence Life.

AU Electrical Labeling Color Scheme

Color	Example	Use
white letters on black	Normal power	Standard identification for building systems and equipment
white letters on orange or black letters on orange	Critical power Critical Power	Critical and optional (legally required) emergency power
white letters on red	Emergency power	Life safety systems

Note: Labeling for all equipment should match source of power.
