

Discount Dental Coverage

Save between 30%—60% on your next dental visit

CareFirst BlueChoice members now have access to a regional network of dentists (including specialists, where available) who provide discounts of between 30% and 60% on virtually all types of dental procedures, including routine office visits, X-rays, exams, fillings, root canals and even orthodontics. The BlueChoice Discount Dental program is included at no additional charge as part of your CareFirst BlueChoice medical plan and is administered by The Dental Network, an independent licensee of the Blue Cross and Blue Shield Association.

Just show your BlueChoice ID card

CareFirst BlueChoice members need only show their BlueChoice identification card when visiting any participating plan provider to receive dental services at discounted fees. Because the Discount Dental program is not insurance, there are no claim forms, no maximums and no deductibles.

What is CareFirst BlueChoice's Discount Dental Program?

CareFirst BlueChoice's Discount Dental program entitles any CareFirst BlueChoice member to receive 30%-60% off most dental procedures.

How does this plan differ from dental insurance?

With dental insurance, there is often a limit on the amount of coverage per calendar year. There is no such limit when using your discount plan; members simply pay the discounted rate at the time of service. In addition, since this is not insurance coverage, there are no insurance claims to file.

Can I benefit from this program even if I have dental insurance?

Although the Discount Dental program can work well as your only policy, you may also find it valuable if you already have dental insurance. Many dental insurance programs have a maximum benefit limit set per year. The Discount Dental program provides a nice safety net should you exceed your dollar limit and still require dental work.

How much will I save on my dental care?

Discounts normally range between 30% and 60% of the price a provider would normally charge you for these services. For specific costs for various procedures, please visit member.carefirst.com. Select *Using Your Plan* and then *Frequently Asked Questions* under the Resources heading. Click on *BlueChoice Discount Dental* in the Dental Category and select *How much will I save on my dental care?*

Where will I go to receive dental care for my entire family?

CareFirst BlueChoice's Discount Dental program has over 580 participating dentists and specialists in Maryland, Washington, D.C. and Northern Virginia. Please refer to our online provider directory at member.carefirst.com to determine which providers participate in this program.
